Education:

Moravian University, Bethlehem, PA

Graduated: May 2025

Bachelor of Science in Computer Science, GPA: 3.26

Honors and Awards: Dean's List Spring 2024, Robert M. Amey '57 Memorial Scholarship Fund

Relevant Coursework: Cloud Computing, Advanced Software Development, Dev Ops, System Design

Experience:

Calcium+Company

Philadelphia, PA

Technology Intern | NodeJs, JavaScript, HTML, SASS, Figma

June 2024 - August 2024

- Developed and deployed a responsive company website, improving load speed and accessibility compliance with WCAG standards.
- Boosted user engagement by 50% by implementing **SEO** enhancements, UI redesign, and performance optimizations.
- Improved feature delivery through active participation in **Agile** development, standups, sprint planning and retrospectives.
- Facilitated cross-team communication by sharing progress and blockers, and leading technical discussions in one-on-ones.
- Designed and presented an **artificial intelligence (AI)** plan across company channels, identifying 2 new opportunities for automation and customer engagement.

Moravian University

Bethlehem, PA

IT Help Desk Technician

September 2023 - May 2025

- Managed support for Apple devices, public Mac/PC labs, and printers in a high-demand university campus setting.
- Delivered prompt and effective technical support for in-classroom emergencies, ensuring minimal disruption.
- Logged all user issues and service requests in ServiceNow with clarity and precision during troubleshooting.

Moravian University

Bethlehem, PA

Teacher Assistant | HTML, CSS, SASS, React, JavaScript, Figma, PhotoShop

October 2024 - May 2025

- Supported student projects in and outside of class to enhance project outcomes and confident application.
- Reviewed student code providing actionable feedback to enhance code quality and understanding.
- Acted as a liaison between students and the professor using cross-functional communication.

Project Experience:

FrontEnd Capstone (Merck + Careset) | React, Bootstrap, Docker, AWS, ViteJS

Moravian University, Spring 2025

- Led frontend development of a full-stack search platform for Regulations.gov improving usability and accessibility for 1K+ users.
- Integrated **Amazon Cognito** to provide secure authentication, safeguarding our **REST API** endpoints protecting user data.
- Applied **Agile** practices by coordinating development tasks in **Trello**, streamlining workflow and reducing delivery time.
- Leveraged **Git** and **GitHub** for version control and documentation, ensuring code quality and project transparency.

Portfolio | NextJS, React, Bootstrap, Jest, ViteJS

May 2025

- Built a responsive, intuitive website, increasing project visibility by 40%, highlighting my technical skills to employers.
- Integrated **GitHub** and **Vercel** for **CI/CD**, automating deployments and improving version tracking.
- Implemented **Jest** unit tests to validate components, ensuring stability and maintaining code quality.

Photography Portfolio | NextJS, React, Chakra-UI, Supabase, ViteJS, Redux

June 2025

- Programmed a full-stack photo gallery web app with user-facing UI and **Supabase** backend, enabling secure file storage.
- Grew user base to 100+ by deploying through **GitHub** and **Vercel CI/CD** increasing project reach and accessibility.
- Incorporated **Chakra-UI** to display image galleries dynamically, ensuring consistent styling and accessible components.
- Adopted **Redux** for centralized state management, improving application scalability and maintainability.

Skills:

Languages: JavaScript, HTML, CSS, SASS, React, Python, NodeJS, NextJS, Java, MySQL

Tools & Methods: Git, GitHub, ViteJS, Bootstrap, Chakra-UI, Figma, Amazon Web Services (AWS)

Methods & Principles: Agile Development, Scrum, CI/CD, Responsive Design, UI/UX principles
