Work Experience:

Calcium+Company

Philadelphia, PA

Technology Intern | NodeJs, JavaScript, HTML, SASS, Figma

June 2024 - August 2024

- Designed, built, and deployed the company website end-to-end, significantly improving engagement and interaction.
- Actively contributed to **Agile** development through **Scrum** methodology, in daily standups, sprint planning and retrospectives.
- Regularly shared progress and blockers while contributing to technical discussions, one-on-ones and team meetings.
- Developed and presented an internal plan to incorporate **artificial intelligence (AI)** across multiple channels within the company.

Moravian University

Bethlehem, PA

IT Help Desk Technician

September 2023 - May 2025

- Managed support for Apple devices, public Mac/PC labs, and printers in a high-demand university campus setting.
- Delivered prompt and effective technical support for in-classroom emergencies, ensuring minimal disruption.
- Logged all user issues and service requests in ServiceNow with clarity and precision during troubleshooting.

Moravian University

Bethlehem, PA

Teacher Assistant

October 2024 - May 2025

- Supported student projects in and outside of class to enhance understanding and project outcomes.
- Reviewed student code and provided actionable feedback to enhance code quality and understanding.
- Clarified concepts to support student understanding and confident application.

Project Experience:

FrontEnd Capstone (Merck + Careset) | React, Bootstrap, Docker, AWS, ViteJS

Moravian University, Spring 2025

- Engineered a full-stack web application to improve searching on Regulations.gov for a capstone project.
- Integrated **Amazon Cognito** for secure user authentication and safeguard **RestAPI** endpoints.
- Coordinated development tasks with **Trello** applying **Agile** methodologies for efficient team workflow.
- Leveraged **Git** for efficient version control and authored detailed project documentation on **GitHub**.

Portfolio

May 2025

- Built a responsive personal website using **NextJS**, **React** and **CSS** focusing on intuitive design, increasing project visibility and showcasing technical skills to potential employers.
- Enabled continuous integration and automated deployments by integrating **GitHub** with **Vercel**.
- Leveraged **Jest** for unit testing to ensure component stability and maintain code quality.

Photography Portfolio

June 2025

- Developed a responsive photography website using **NextJS**, **React** and **Chakra-UI** to showcase and increase photography visibility.
- Integrated **GitHub** with **Vercel** to deploy a full-stack photography portfolio, enabling **CI/CD** resulting in reliable production releases.
- Implemented serverless backend logic and file storage using **Supabase** (PostgreSQL + Storage).
