Work Experience:

Calcium+Company

Philadelphia, PA

Technology Intern

June 2024 - August 2024

- Developed and implemented the company website using **Node.js**, **JavaScript**, **HTML**, **SASS**, and **Figma**.
- Actively contributed to **Agile** development using **Scrum** methodology by participating in daily standups, sprint planning, and retrospectives.
- Regularly shared progress and blockers, and engaged in technical discussions through one-on-ones and team meetings.
- Developed and presented an internal plan to incorporate artificial intelligence (AI) across multiple channels within the company.

Moravian University

Bethlehem, PA

IT Help Desk Technician

September 2023 - May 2025

- Supported and maintained Moravian-issued Apple devices, public Mac and PC labs, and public printers across a busy university campus environment.
- Delivered prompt and effective technical support for in-classroom emergencies, ensuring minimal disruption.
- Documented clearly and concisely, all user incidents and requests through Service-Now incident database when identifying a user's problem.

Moravian University

Bethlehem, PA

Teacher Assistant

October 2024 - May 2025

- Supported student projects in and outside of class to enhance understanding and project outcomes
- Reviewed student code and provided actionable feedback to enhance code quality and understanding.
- Clarified concepts to support student understanding and confident application.

Project Experience:

Senior Capstone Project

Moravian University, Spring 2025

- Engineered a full-stack web app to improve search on Regulations.gov for a capstone project
- Designed and implemented the web interface to improve user experience and functionality.
- Implemented **React**, **Bootstrap**, **Docker**, **AWS**, and **Vite**, to deliver a fast, responsive, and user-friendly interface.
- Coordinated development tasks with **Trello** and **GitHub**, applying **Agile** methodologies for efficient team workflow.

Portfolio

May 2025

- Created and deployed a responsive website to highlight personal projects and hobbies focused on intuitive design.
- Applied **JavaScript**, **jQuery**, **HTML5**, **SASS**, and **Figma** to design and implement scalable, seamless user interfaces.

Recipe App

May 2025

- Designed and developed a responsive web application for recipe search and exploration using the Spoonacular API.
- Implemented a fast, seamless user interface by developing with **JavaScript**, **TypeScript**, **Next.js**, and **Tailwind CSS**.

Technical Skills:

Programming Languages: JavaScript, HTML, CSS, SASS, Python, Java, MySQL

Developer Tools: Git, GitHub, BitBucket, Figma, Docker

Libraries/Frameworks: AWS, ReactJS, NextJS, ViteJS, Bootstrap, Tailwind CSS, jQuery

Campus and Community Involvement:

Delta Tau Delta Fraternity

October 2023 - May 2025

Honor Board Member

- Led and supported trials to uphold our fraternity's Life of Excellence mission and ensure accountability and standards.

Orientation Leader

August 2024 - May 2025

- Facilitated orientation activities to welcome and engage incoming students, fostering community and connection.
